

SINGLE TEST MODULE “COMPRESSION BOXES”

Single Test Software for testing Compression Packaging and containers and empty its contents on a PC connected to a Compression Tester

“Data in Real Time...”

COMPRESSION TESTS modes

- ✓ BCT Module
- ✓ CONSTANT LOAD Module
- ✓ CYCLIC Module

It can work autonomously or Integrated in the Management Module (one-to-one connection) or in the **LYNX** Integral Management System Plus or Pro (Multiple test equipment connection in LAN) with other parameters generated in the Testing Laboratory

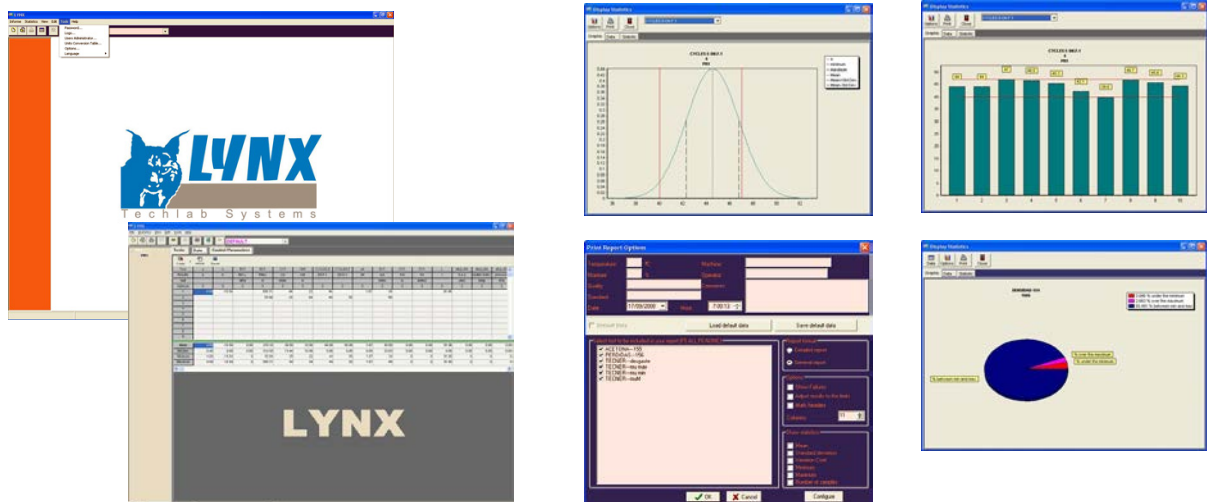

- Quickness carrying out tests and obtaining results
- No human mistakes
- Traceability according to ISO 9000

Through this Test software and using a Compression Machine, Compression until breakage, Constant Load Compression, and Cyclic Compression tests in Packaging and Packing of Corrugated Board and Compact Board, Plastic, Metal... can be carried out.

- It marks Maximum-Minimum-Medium Values and Standard Deviation
- Up to 100 tests for each report storing capacity
- SAVE-PRINT-OFFICE CLIPBOARD functions- Reports in PDF format

OPTIONAL : MANAGEMENT MODULE with Basic Statistics

The Management Module allows you to manage the data generated, choose the interface language, prepare and print reports that you can customize with your logo, change the testing units, different user password levels, introduce the minimum, maximum and optimal values to manage data with statistics, charts bars, GAUSSEN Bell, tolerances comparatives, export data to Word - Excel ..., PDF generation and more.
